The PortaSpin™ PX C829 Centrifuge is a robust and portable centrifuge designed to deliver reliable performance in mobile and field settings. Powered by a 12V DC vehicle power adapter (included), this centrifuge allows for easy operation directly from your vehicle's power source, making it perfect for remote locations, fieldwork, or mobile laboratories. With an 8-place rotor, the C829 PX accommodates up to eight tubes, enabling efficient processing of multiple samples at once. For added safety, it features a dual lid lock to ensure that the lid remains securely closed during operation. The built-in leveling system provides stability, ensuring consistent and reliable performance even on uneven surfaces. Whether you are conducting research in the field or need a centrifuge for on-the-go testing, the C828 PX offers the ideal solution, combining convenience, safety, and high performance in one portable unit.
