

# Orbital Shaker

Model: L-RT30C

- 11" X 11" MIXING PLATFORM
- VARIABLE SPEED RANGE (25-250 RPM)
- DIGITAL DISPLAY
- 120V POWER COMPATIBILITY
- HUMIDITY COVER INCLUDED

The L-RT30C Rotator is a versatile and reliable laboratory instrument designed for gentle to vigorous mixing of samples in a variety of applications. It features a spacious 11" x 11" mixing platform, providing ample space for multiple tubes, flasks, or other containers. The rotator offers a wide, variable speed range from 25 to 250 RPM, allowing for precise control of mixing intensity, from gentle rocking for cell cultures to more vigorous mixing for dissolving powders or other applications. A clear digital display provides accurate speed monitoring. Designed for use with 120V power, it is compatible with standard North American electrical systems. The included humidity cover helps to maintain consistent humidity levels around samples, preventing evaporation and ensuring optimal conditions for sensitive applications. The L-RT30C is ideal for use in life science, chemistry, and other research laboratories requiring controlled and consistent mixing.
