

Biohazard Shield

Model: 11410

The UNICO 11410 Biohazard Shield is a crucial safety device designed to protect laboratory personnel from splashes, sprays, and aerosols generated during various procedures. Constructed from durable, transparent acrylic, this shield provides a clear view of the work area while effectively containing potentially hazardous materials. Measuring 11.5"W x 7.5"D x 15"H, it offers ample protection for a variety of benchtop applications. The UNICO 11410 Biohazard Shield is an essential piece of personal protective equipment (PPE) for any laboratory working with biohazardous materials, helping to minimize the risk of exposure and maintain a safe working environment.
