

Tube-CUBE™

Model: 54901

The UNICO Tube Cube is a compact and convenient 9-place tube rack designed for organizing and storing tubes ranging from 8-16mm in diameter. This cube-shaped rack offers a stable and space-saving solution for managing multiple samples. Its design prevents tubes from tipping or rolling, minimizing the risk of spills and contamination. Ideal for use on benchtops, in refrigerators, or incubators where space is limited, the UNICO Tube Cube provides a simple and effective way to keep your workspace organized and your samples secure. This is a single cube unit.
