

CPU Circuit Board for L-VM1000/2000

Model: L-VM1000-Board

L-VM1000-Board

- GUARANTEED COMPATIBILITY: SPECIFICALLY DESIGNED FOR L-VM1000 AND L-VM2000 SERIES.
- ESSENTIAL FUNCTIONALITY: CONTROLS CORE PROCESSING AND OPERATIONAL TASKS.
- HIGH RELIABILITY: BUILT WITH QUALITY COMPONENTS FOR DEPENDABLE PERFORMANCE.

This is the dedicated central processing unit (CPU) circuit board specifically designed and engineered for seamless compatibility with the L-VM1000 and L-VM2000 product lines. As a critical component, the CPU circuit board manages essential functions, ensuring optimal operation and responsiveness of your valuable equipment.
